• ABOUT OUR COFFEE

Our coffee bar is approached with the same care and focus on quality as our food program. We take great strides in presenting local, premium ingredients that are all-natural and prepared in-house. Through our partnerships with skilled roasters, we are able to source our coffee in the same way. We are honored to have partnered with Square One Coffee from Lancaster PA to roast signature blends specifically for our cafes. We also feature a rotating guest roaster, showcasing both seasonal blends and single origin offerings. We offer a large selection of premium loose leaf teas and make all syrups and sauces for specialty drinks in-house. We are excited to offer our tap coffee program at all three locations including our super smooth Cold Brew, single origin Nitro coffee and Philly's first seasonal coffee soda on tap.
